CONTENTS.

VOL. III.

	Page
Abrading and transporting power of water	163
Absorption of oxygen	246
Accidents, six years of	81
In 1869	92
Accumulator system	536
A Glance at Aeronautical Science	113
Agricultural Works at Newcastle	516
Ailanthus timber	448
Air, relative purity of	558
Air Filter	111
Alcohol, new test for	448
Ancient silver mine	363
A new motive power	104
A new rotary pump	253
Annealing metals	548
Annealing-pots	213
A puzzling possibility	208
Apparatus for reducing silver chloride	347
Arches	449
Architecture in India	142
Architecture, naval	651
Architect's account of the Giant's Causeway	266
Army service corps in England	439
Arrangement and maintenance of batteries	399
Asbestus air filter	111
Asphalt paving	161
Association, National life-boat	55
Atmospheric Brake	327
Telegraph	449
Attraction of the needle gun	102
Australian telegraphy	625
Automatic boiler feeder	426
A valuable experiment	57
A very costly and vexatious fallacy	517
Axes, best form of	110
Axles, broken	437
Baker's cylinder and bed-plate	437
Battery, Faure's	664
Battery, new galvanic	292, 560
Batteries, arrangement and maintenance of	399
Beams, laws of deflection of	70
Belgian coal	625
Bessemer metal, uses of	650
Bessemer Works at Troy	533
Bessemer's suspended cabin	329
Bismuth ore	559
Black Mountain region	241
Blast, cold, warm and hot	178
Blast furnace in Cleveland district, Eng	434
In Oneida Co., N. Y	480
At Zanesville	413
Heat of	361
The first	540
Blast furnace economy	83, 433
Improved	327
Gases utilized	433
Blast engines	448
Bogie engines	328
Boilers, double	209
Boilers, heated by waste heat	393
New smoke preventing	554
Boiler feeder	426
Book Notices:	
Adams, W. H. D. Lighthouses and light-ships	664
Auchincloss, W. S. Report upon steam engineering	109
Baker, B. On the strength of beams, columns, etc.	333
Barbe, Paul. La Dynamite	556
Beale, Lionel S. Protoplasm	335
Birch, R. W. P. The disposal of town sewage	334
Braun, A. Die Einzeit der Erde	108
Brialmont, A. Fortification improvise	108
Burat, Amidée. Les Houilleries 1868	108
Burgh, N. P. The slide valve	219
Chanute, O. The Kansas City Bridge	663
Chevreul, M. E. La Methode posteriore experimentale	109
Colin, Edmond L. Eclairage aux huiles minerales	109
Cooke, Josiah P. Chemical philosophy	107
Cox, E. T. Geological survey of Indiana	109
Crooke's & Rohrigg's metallurgy	105
Davies, Chas., LL.D. Elements of surveying and levelling	220
Dircks H. Perpetuum Mobile	662
Donald R. Marvels of architecture	220
Eggleston, T., Jr. American blast furnaces	109
Fairbairn, Sir Wm. The application of cast and wrought iron to building purposes	335
Feuchtwanger, L. & J. W. A practical treatise on soluble or water glass	661
Figuier Louis. Earth and sea	664
Fowler, Geo. Papers on the theory and practice of coal-mining	661
Frankland, E. Lecture notes for chemical students	221
Goodeve, T. M. The elements of mechanism	664
Greenwell, G. C. A treatise on mine engineering	445
Jacqmin, F. Des machines a vapeur	333
Book Notices:	
Jordan, Chas. H. Tables of weights of iron	555
Herschel, Sir John. Meteorology	221
Hewitt, A. S. The production of iron and steel in its domestic relations	109
Hibbard, Shirley. Rustic adornments for homes of taste	221
Hirschwald. Qualitative analysis	444
Karsten, G. Einleitung in die Physik	219
Krupp, F. Fermeture cylindro pneumatique	109
Leavitt, T. H. Peat fuel	334
Macvicar, John, LL.D. Chemistry of natural substances	443
Newbiggin, Thos. Gas manager's hand-book	444
Norman, J. A. Approximative de construction navale	109
Page, D. Text book of physical geography	221
Percy, John, F.R.S. The metallurgy of lead	441
Phillips, W. & T. Architectural iron construction	554
Procter, R. A. Other worlds than ours	221
Rickard, F. Practical mining described	333
Riddell, Robt. The new elements of hand railing	109, 555
Robinson, J. R. Explosions of steam-boilers	663
Roscoe, Henry E. Spectrum analysis	335
Royal Commission Report on water supply	109
Rutley, Chas. Researches on the action of the blast furnace	555
Schellen, Dr. H. Die spectral analyse	221
Schrauf, Dr. Handbuch der Edelsteinkunde	108

	Page
Book Notices:	
Tarn, E. Wyndham. The science of building	218
Turgan. Les Grandes Usines	556
Tyas, Rev. R. How to use the barometer	334
Tyndall, John, LL.D., F. R.S. Lectures on electrical phenomena	445
do. Lectures on light	555
Tyndall, John, F.R S. Researches on diamagnetism, etc	663
Young, Wm. Peutner's comprehensive specifier.	555
Boring machines for mines	12
Boutet's ballangoire	150
Brass	110
Breech-loaders for England	494
Brick masonry, experiments on	170
Bridges, metallic, testing of	532
Military, our system of	310
Bridge construction	89
Clarke's Quincy	49
Counterbracing	379
Across the Connecticut	217
East River	52, 439, 655
International at Buffalo	261
Kansas City	225, 404
At Kiew	128, 265
In Scotland	281
At Strasbourg	309
The Dee	265
Bridge at Albany	660
Across the Mississippi	565
Bridge, East River	569
British Indian cable	61
British War Office returns	551
Bromine	32
Bronze guns	343
Bronzes	179
Budget, the Indian	391
Bulging of walls, cause and prevention	96
Cable, Atlantic, of 1866	445
British Indian	61
Between England and France	441
Great Northern	254
Company combination	495
Cables, proposed new mode of laying	64
California tin	112
Canadian railways	134
Canal, Amsterdam	332
The Darien	103
The Suez	53
On the Rhone	192
Captain, the loss of the	455
Carbonizing wood	111
Car manufacture	128
Car wheels	328
Carbon in iron	666
Carting heavy steel ingot	548
Centralizing motive power	630
Centre rail system of railways.	636
Centrifugal gun	216
Cerium	416
Changeable gauge cars	215
Channel Ferry bridge	52
Chassepot rifle	438
Chemical treatment of sewage.	247
Chemistry of potable waters	257
Chimney straightening	558
China, productions of	349
Chronoscope, application of	515
Civil engineering at the time of Christ	388
Clarke's Quincy railway bridge	49
Clock of Strasbourg	526
Coal in Belgium	625
Bengal	63
Consumption on British ships	551
Coal burning locomotives	140
Coal working, safety of different methods	263
Modes of	601
Cochineal	448
Cold blast, warm blast, hot blast	178
Collieries at Pottsville	535
Commerce of the Ohio river	625
Of the world	636
Comparative effects of gunpowder and gun cotton	306
Composition of Wootz steel	280
Compounds, explosive	559
Condensers	447
Construction of bridges	89
Of pier No. 4 of Kansas city bridge	404
Conveyance of town sewage	129
Copper in America	446
Cornish engine	224
Counterbracing in bridges	379
Cylinders for hydraulic presses.	67
Dantzic sanitary works	397
Darien survey	217
Decay of stone	295
Decentring apparatus	537
Decorative art of Japan	315
Deep sea soundings	446
Department of docks in New York	445
Description of the salt mines in Cheshire	154
Determination of the unit of oblique pressure	567
Detroit manufactures	413
Double steam boilers	209
Drawing board, new	493
Drawings, shading and tinting of	110
Drinking fountains	156
Duty of pumping engines	600
Earth, transportation of	25
East River Bridge	52, 439, 655
Economical steam engines	78, 242
Electricity	288, 292
Electric currents, velocity of	447
Electric buoy	441
Electro deposition of iron	213
Electro heating	289
Electro magnetic engines	439
Electro metallurgy	447
Electrolytic insulation	617
Elevated railway	55, 332
Elevator at La Crosse	495
Energy	380
Enfield rifles	439
Engine trials of the Royal Agricultural Society	337
Engines, compound marine	223
Cornish	224
Duty of	600
Economical	78, 242
Fairlie's	213, 389
Flexible tube	287
Friction of	373
Marine	460
Pumping, Danish	441
Parker's steam and air	89
Estimation of manganese in Spiegeleisen	282
Evaporating capacity of boilers	393
Excavation and embankment tables	297
Expansion gear	125
Experiments on evaporation of a Corliss boiler	175
Dephosphorization of iron	212
Heaton steel	284
Iron and steel	145, 172, 284
Making masonry impervious to water	170
Systems of brick and cement floors	412
Experiments at Shoeburyness	332
Experiments with a decentring apparatus	537
Experiments with ice	131
Liquid fuel	223
Moncrieff's gun carriage	102
Nine-inch Whitworth gun	103
Explosive power of nitro-glycerine	603
Extract of tar and paraffine	251
Fairlie's engines	213, 216, 389
Fallacy, a costly and vexatious	517
Feathers in mahogany	224
Ferro-manganese	262, 620
Filtration of sewage	121
Fire proof structures	606
Fleet of the future	147
Flexible tube engine	287
Fluidity of solids	48
Fluo-titanic process	531
Fluxes	210
Fly wheels	97
Force of wind	431
Forest submerged	143
Formulæ for strains in trusses	193, 417
Fortifications of Paris	438
France, iron trade in	100, 210
Freight car truck	214
French and Prussian field guns.	658
Friction of steam engines	373
Frog, Armstrong's	329
Fuel, dust	647
Fuel, liquid	223, 593
Furnace, Hopewell	535
For smelting lead	556
Furnaces, Glamorgan	516
Puddling	213
Gas illumination	445
Used for heating	192
Gases, color of in Geissler tubes	427
Occlusion of by electro-deposited iron	307
Gatling gun	550
Giant's Causeway	266
Gems	658
Glamorgan furnace	516
Glass works in New Albany	504
St. Louis	427
Gold nuggets and gold dust	249
Gold fields in Khotan	314
Gold of the world	447
Gold-washing apparatus	665
Guano statistics	121
Gun carriage, new	296
Gun carriages, rival	487
Naval	507
Gunpowder and gun cotton	306
Gun experiments at Shoeburyness	332
Guns	216, 414, 438, 439, 463, 494, 550, 624
Bronze	343
Rifling of	365
Versus Turrets	135

	Page
Guns, the chassepot and the needle	331
Hardening plaster of Paris	665
Hardness of metals	224
Harvey's torpedo	657
Heat by means of illuminating gas	192
In blast furnace	361
Heated air substituted for oxygen	611
Heating buildings by hot water	481
Heaton steel	284
Historical sketch of the American locomotive	655
Historic meteorology	500
History of military fire-arms	639
Hoosac tunnel	231
Hot blast blowpipe	611
Hydraulic press cylinders	64
Propeller	55
Hydro-carbon oils	512
Hydrogen gas, preparation of	509
Ice	608
Ice, quality of	608
India, the mineral wealth of	525
Modern architecture in	142
New railway in	215
State railways in	215, 216
Indian railways	510
Influence of Suez canal on India trade	53
Injury to telegraph wires	94
International communication	330
Iridium	179
Iron arches	449
Iron and steel	210, 211, 517, 531
Iron-clads for British navy	439
Iron, crystallization of	211
Dephosphorization of	212, 588
Electro-deposition of	213
Experiments on	145, 172
For ship building	99
Manufacture by direct methods	232, 355
Manufacture in Ohio	363
In Prussia	548
Ore in Indiana	392
Preservation and purity of	527
Process, Girard's	435
Puddling	132
Statistics	93, 467
Structural utility of	180
Structures working load of	604
Tenacity of	222
Trade of Europe	546
Trade of Great Britain	546
Trade of France	100, 210, 434, 548
Transformation of	212
Works, a model	547
Iron works at Weardale	657
Japan, decorative art of	315
Japanese railways	125
Leather paper	557
Kansas City Bridge	225, 404
Knowles's permanent way	214
Krupp's works at Essen	666
Lafayette Iron Company	369
Late experiments on Heaton steel	284
Laws of sewage and other fertilizers	278
Lecture on stream lines and waves	651
Lead in America	446
Lead, native	369
Lead ores, dressing of	59
Lead pipes	558
Lead smelting furnaces	556
Leclanche's battery	292
Lecture on telegraphy	341
Lever, physical theory of	273
Liquid or concentrated fuel	593
Liverpool steamer, new	298
Load-draught of merchant ships	56
Loads, rolling	591
Locomotives, coal burning	140
Locomotive cylinder and bed plate	437
Manufacture at Patterson	378, 608
New	215
Statistics	436
Tractive power of	499, 613
Locomotive works	608
Lyman's accelerator gun	658
Machines for mines	12
Magnetization, mechanical effects of	18
Manganese	111
Estimation of, in Spiegeleisen	262
Manufacture of iron	132, 232, 256, 355
Hydro-carbon oils	512
Marine engines	460
Martini-Henry rifles	463
Marvel of steam engineering	560
Mechanical effects of magnetization	18
Merchant ships, load-draught of	61
Metalline	545
Metals and their ores	503
Meter for steam power	632
Meterology, Historic	500
Method of testing thick armor	103
Military fire-arms	639
Mills, steam power for	33
Mineral resources and precious stones of Russia	139
Of Turkestan	291
Mineral wealth of India	525
Miner's strike	378
Mines, silver	363
Mining coal in deep workings	270
Mining in Europe, statistics	326
Mining engines	436
Mining tools from Sinai	111
Mitrailleuse, the French	329, 550
Mobility of field artillery	624
Modern fire-arms	463
Moncrieff's gun-carriage	102
Morse's bathometer	37
Motion of water in rivers and canals	118
Mountain railway in Hungary	162
Muscular exertion, natural laws of	293, 458
Natural and artificial productions of China	349
Naval gun-carriages	507
Naval ordnance	268
Navigable dock	104
Needle gun	102
New apparatus for reducing silver chloride	347
New colorimeter	403
New gold-washing apparatus	665
New method of drying timber	222
New motive power	104
New paper pulp	378
New pier at Cardiff	218
New railway rail	392
New route to India	56
New theodolite	504
New Victorian flag	103
New white-lead process	336
Nils Ericsson	559
Nitro-glycerine	603
Occlusion of gases by electro-deposited iron	307
Ohio river commerce	625
Oils, hydro-carbon	512
On recent improvements in pistons	184
On recent investigations of weather	43
On some mechanical effects of magnetization	18
On the dressing of lead ores	591
On the manufacture of iron and steel by direct methods	232
On the motion of water in rivers and canals	118
Origin of gold nuggets and gold dust	249
Our system of military bridges	310
Oxygen, absorption of by platinum	246
Production of	222
Panama railway	216
Parker's steam and air engine	85
Phosphorus and sulphur	210
Pier at Cardiff	218
Pistons, recent improvement in	184
Plaster of Paris hardened	665
Pneumatic transmission through tunnels and pipes	582
Poisonous lead pipes	558
Polishing powder for metals	666
Portable engines	144
Portage and Ripon railway	363
Powder, experiments upon	93
Practical application of the chronoscope	515
Preservation and purity of iron	527
Preservation of fish in India	309
Production of petroleum	208
Projected railways across the English channel	29
Proposed new mode of raising and laying telegraph cables	64
Puddling furnaces	40, 213
Pump, a new rotary	253
Punjaub Railway	216
Purification of sewage	428
Puzzling possibility	208
Quality of ice	608
Rafters, strains in	472
Rail mending	609
Rails, British	210
In France	210
Railway carriages	151, 270
Construction	505
Collision	11
Elevated	55, 655
Euphrates Valley	549
Grades and curves	435
Iron	283, 327
International	649
Honduras	136
In Hungary	162
India	215
Maine	216
New Zealand	216
Wales	216
Isthmian	552

	Page
